Dear Speaker Pelosi, Majority Leader Hoyer, Majority Whip Clyburn, Minority Leader McCarthy, and Minority Whip Scalise:

National Disability Leadership Alliance (NDLA) is a national cross-disability coalition of national organizations run by people with disabilities with identifiable grassroots constituencies around the country. NDLA represents the authentic voice of people with disabilities.

We, the 744 undersigned aging, disability, justice and faith-based organizations – comprised of 137 national organizations and 607 state and local organizations – are proud to support of the Disability Integration Act (S.117/H.R.555) and urge you to pass this important, bipartisan legislation in the House of Representatives by July 26, 2019.

The Disability Integration Act would finally secure for Americans with disabilities and seniors the Constitutional right to life and liberty which is promised to all Americans.

Right now, elderly Americans and Americans with disabilities are often denied their Constitutional right to freedom and their ability to live the American dream when they are forced into unwanted institutionalization in order to receive the supports and services they need to live. The Disability Integration Act builds on the Supreme Court's 1999 decision

## **NDLA Letter to House Leadership Regarding H.R. 555, April 10, 2019**

Olmstead v. L.C. which states that Americans with disabilities have the right to live in the most integrated setting.

This year marks the 20th anniversary of that Supreme Court decision, but the promise of Olmstead has not been realized; seniors and people with disabilities are still forced into nursing facilities and other institutional settings where they are segregated and separated from society. The Disability Integration Act would remedy this by requiring states and insurance companies that pay for institutional placement to offer long term services and supports in the individual's home and community.

Disabled Americans have spent far too long waiting to have their right to live in freedom guaranteed, and the Disability Community has spent 29 years fighting this injustice. This bipartisan legislation is long overdue. Leadership in the 116th Congress has talked about creating opportunities for progress and advancing important civil rights work. The Disability Community must not be left behind.

We call on you – as leadership of the House of Representatives – to pass the Disability Integration Act in the House before July 26, 2019. It is time to ensure that our country's promise of liberty is extended to all Americans.
